Explore your possibilities with Origin...

The Origin Home is the complementary range of products from Origin, consisting of precision-made Bi-fold Doors, Windows and electric roller Blinds.

The products and their sophisticated design can bring more light, more style and - thanks to Origin's huge range of colour options - more possibilities into any home.

Whether it's for a traditional or modern home, an Origin Bi-fold Door, Window or Blind cassette can be manufactured in over 150 different RAL shades to ensure there's a colour to suit every home.

Origin also offer the option of choosing a different colour inside and out, so it means that creating your own unique look is easy.

Quality from the start

When investing in a new door or window system, frame material and strength should be a huge consideration.

At Origin, we manufacture our Doors, Windows and Blind cassettes using a premium grade aluminium. Offering innate strength, flexible design possibilities as well as optimum longevity, aluminium also brings the added benefits of being maintenance free, energy efficient and highly durable, so it won't flex, warp or corrode in differing weather conditions.

While there are many different grades of aluminium available, what makes Origin's superior is the way the profile is made and powder coated. Origin only use prime billets of aluminium, meaning that it has not been produced through re-melting scraps. This ensures considerably better control over the aluminium's formulation and thus achieving a higher quality finish.

Guaranteed to stay looking great

In order to give it a flawless finish, our aluminium is coated with the highest grade powder available.

Applied using an electrostatic process after a special pre-treatment, it is then cured at 200°C to form a robust coating that is tougher than conventional paint, whilst maintaining a completely smooth surface. The powder coat finish is extremely hard-wearing and is resistant to scratches and colour fading for optimum longevity, and this is just one of the reasons why a product from Origin is guaranteed to look good for a long time... 20 years to be precise.

Our most popular colours...

“Your

We deliver the fastest and most flexible service in the door and window industry.

Hipca White (9910 G)

Jet Black (9005 M)

Natural Oak

Golden Oak

Ranging from Hipca White to Jet Black and including all of the popular shades in between, these colours are all available on our 'Your lead time, not ours' delivery promise to ensure your Bi-fold Doors are delivered whenever you choose.

These colours, excluding 9006M, are available on an astonishing 1 week lead time for windows.

Also included on these delivery promises are our ever popular wood grain finishes.

Capture the natural effect of wood

Our woodgrain colours offer the beauty of real wood without having to worry about the maintenance, expansion or warping.

How's it possible?

The secret's in the special heat transfer process.

The aluminium is powder coated as a base colour, and is then wrapped in a containing film which creates a vacuum for perfect adhesion.

It's then cured in a high temperature oven, which transfers the ink on the film onto the base surface - in this case, creating a wood grain effect.

Once cooled, the film is removed to leave a finish that not only resembles genuine wood, but offers a 20 year guarantee for optimum peace of mind. With minimal maintenance required, that's even better than the real thing.

Origin is the UK's leading manufacturer of aluminium architectural solutions.

Now award winning and operating internationally, Origin began in 2002 as a family company dedicated to the design, creation and manufacture of the UK's best quality doors, backed by uncompromising levels of service.

Cousins, Neil Ginger and Victoria Brocklesby, have since worked relentlessly to perfect the design and functionality of bi-folding doors, and to create and maintain the highly respected reputation for quality and service that they have today, while expanding the range to include windows and blinds.

As the business has continued to grow and diversify, the foundations of family ethos, pride and ownership in all stages of production firmly remain.
